

Pumpkin FUN

How about a neighbourhood Pumpkin hunt?
Cut out, colour or place a real pumpkin in your
window and on a safe wander around your streets see
how many you can spot.

How about making some pumpkin pie or
pumpkin soup? Deeelicious!

Pumpkins can be orange, yellow, green, red, blue or white...

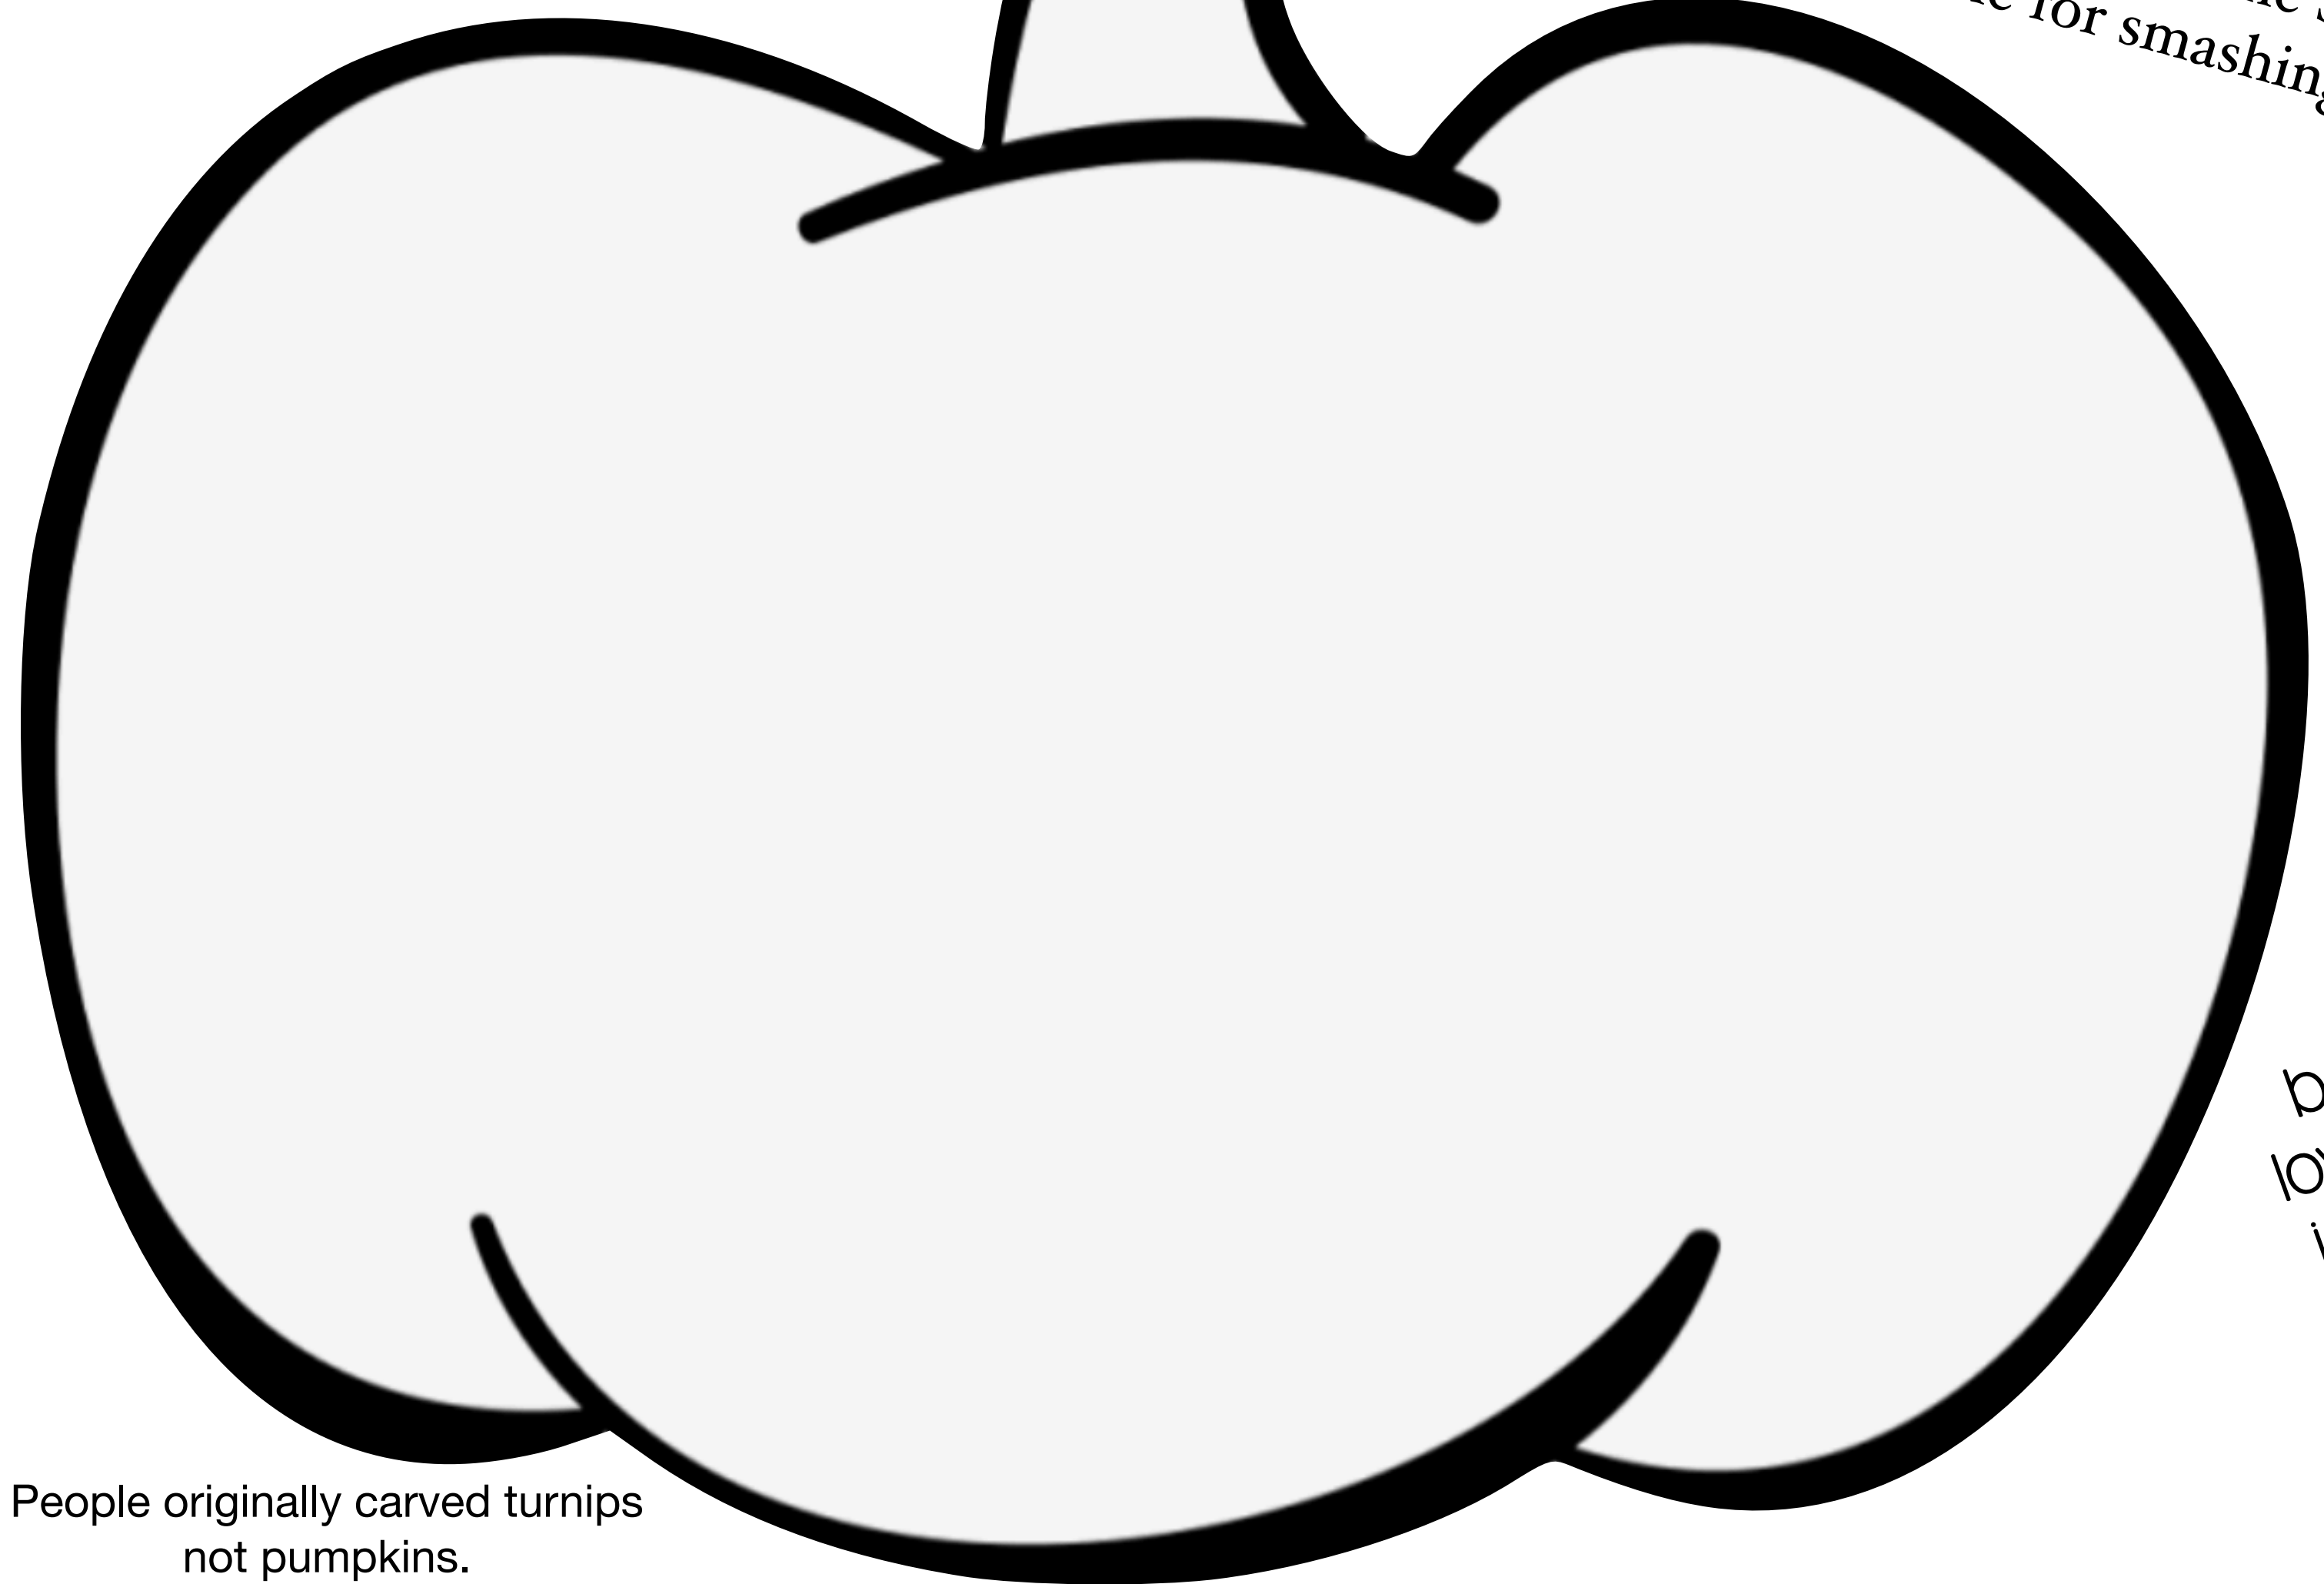

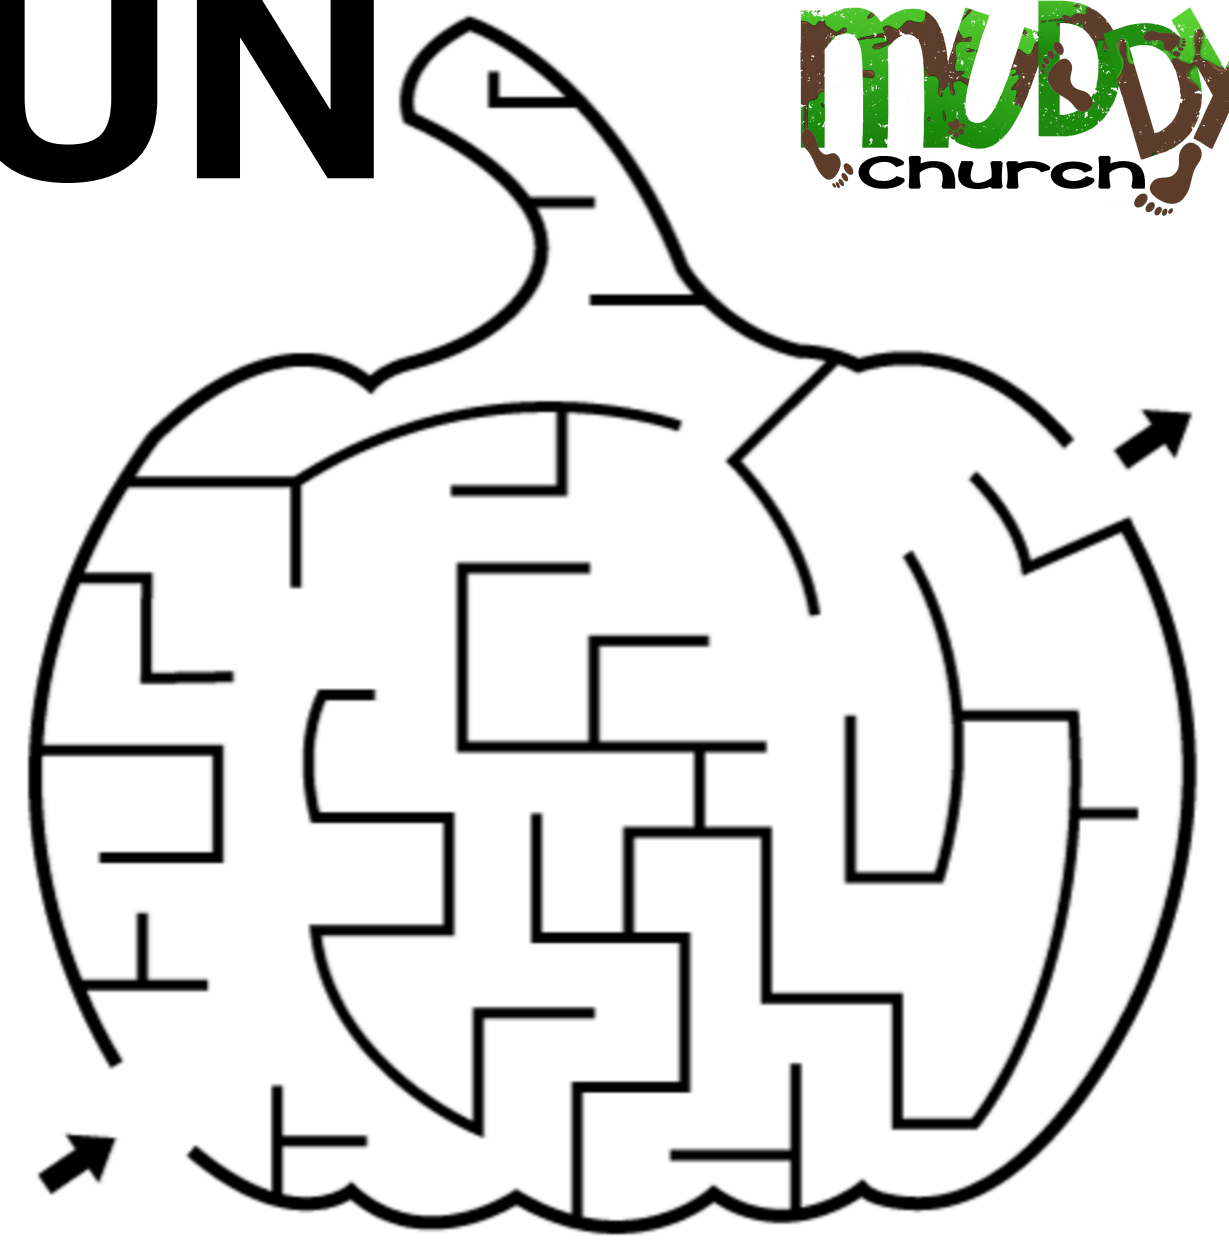

what colour will yours be?

Pumpkin FUN

Pumpkins are part of the Squash family - great name for smashing pumpkins!

Can you get through the pumpkin patch?

People originally carved turnips not pumpkins.

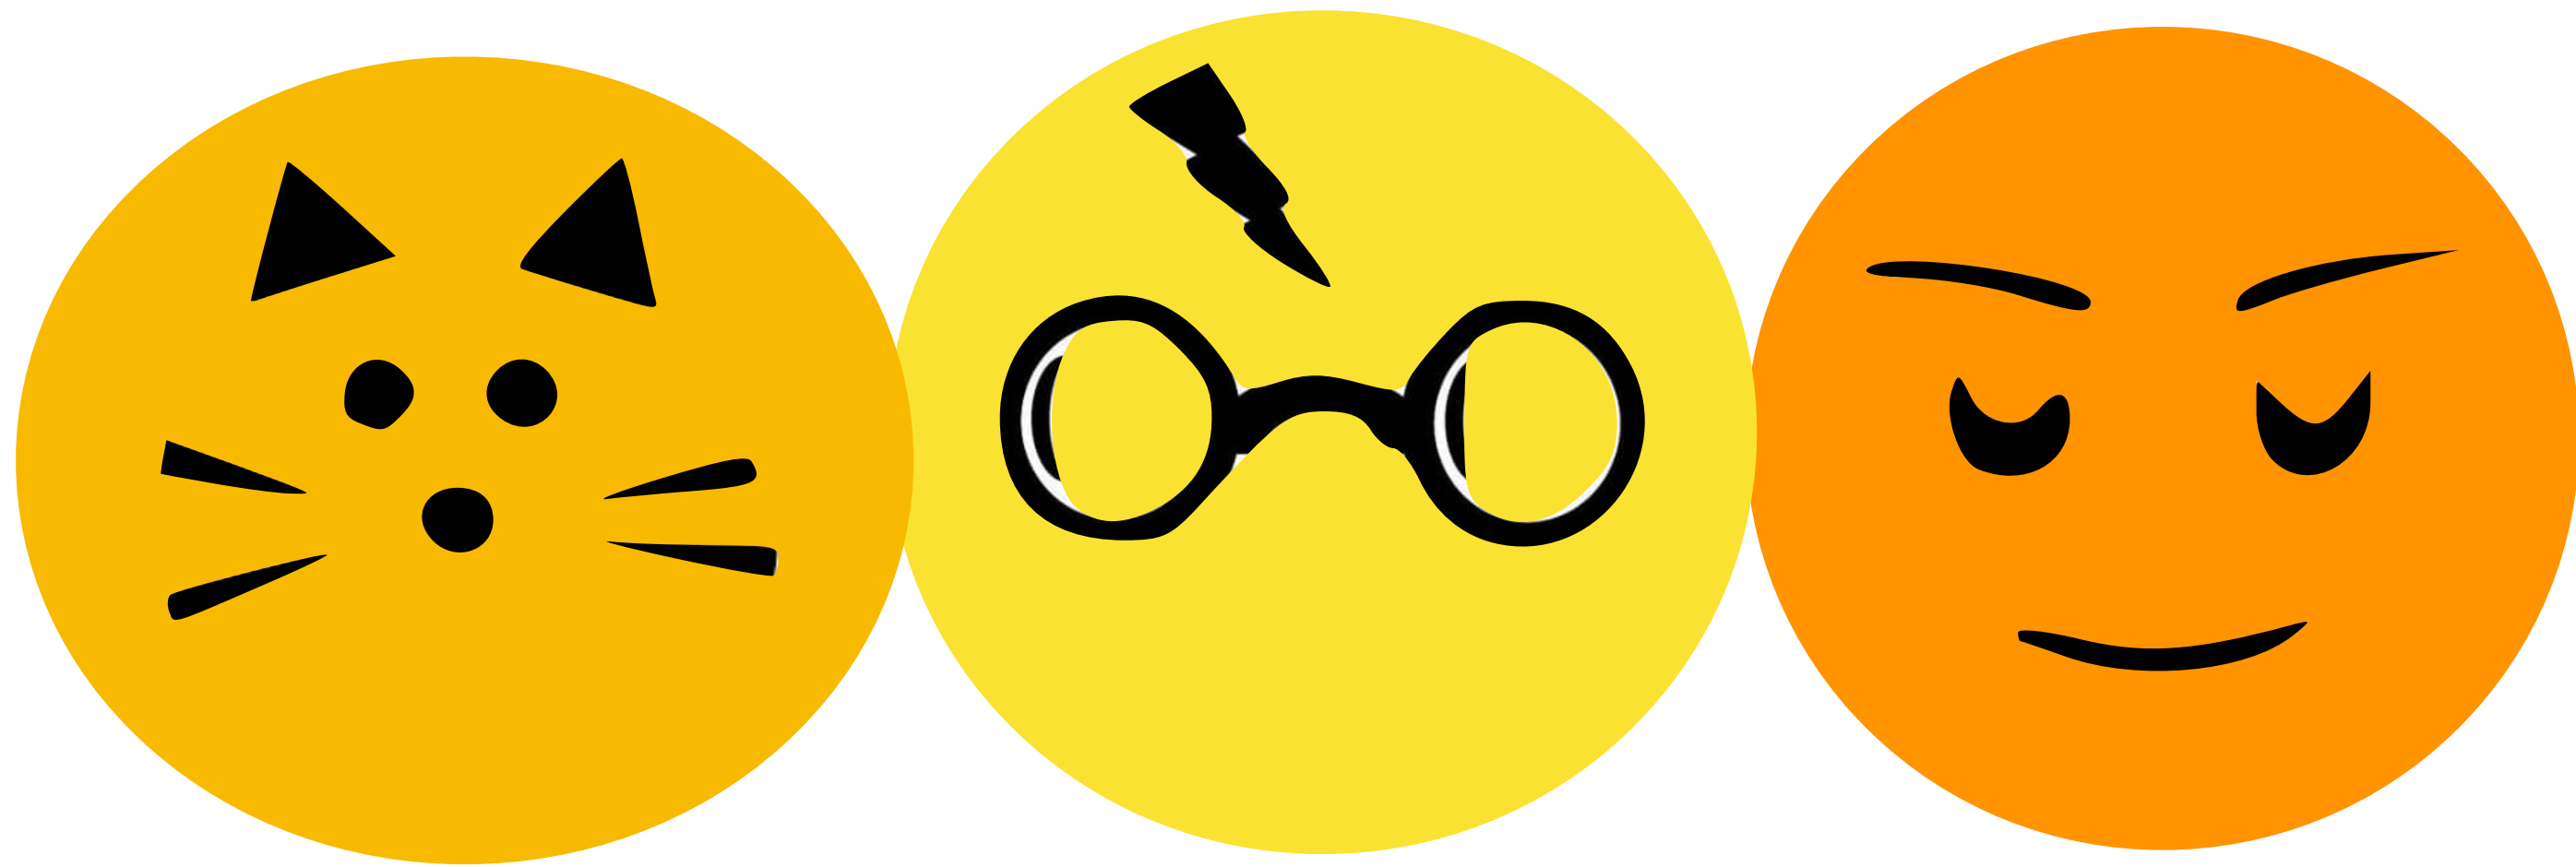

Squirrels, foxes, badgers and birds all love to eat pumpkin. So if you make a pumpkin or use it in a recipe put it outside for the animals to enjoy.... They don't like mouldy pumpkin or paint though!

Antarctica is the only continent pumpkins don't grow in. Poor penguins never get a pumpkin pie (try that for a tongue twister!)

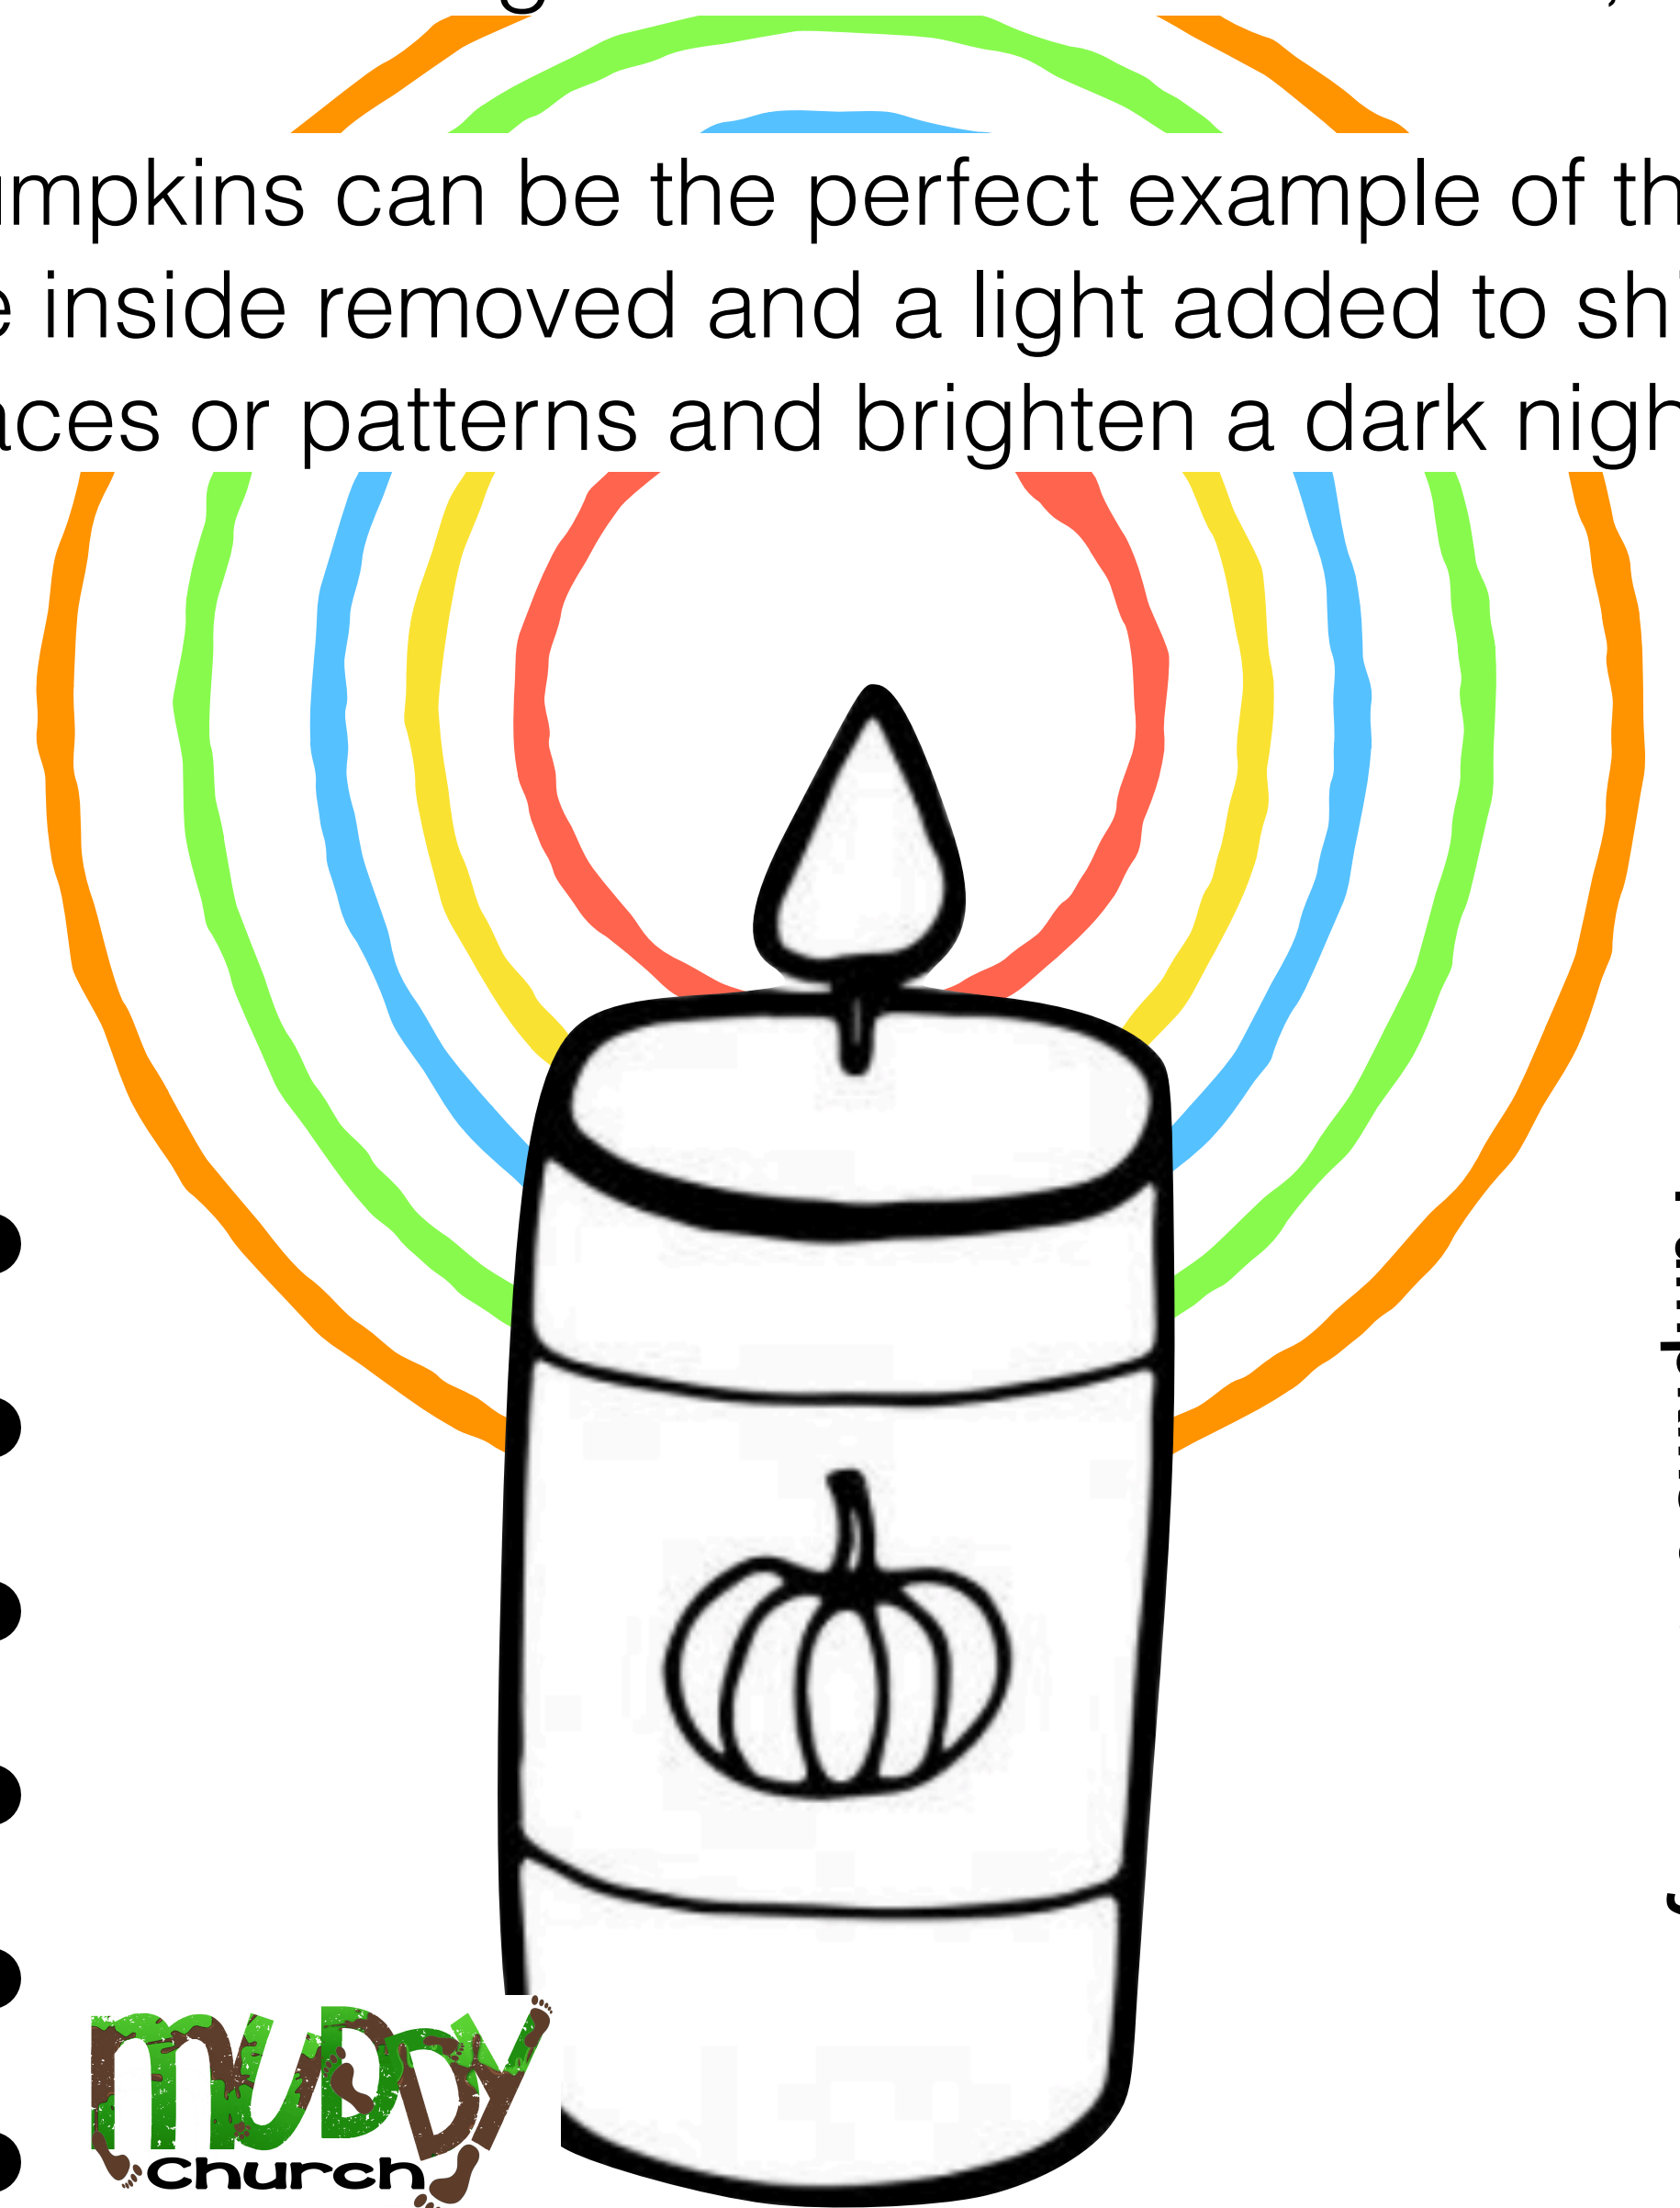

Have you ever carved a pumpkin? What shapes did you use? Did you make a face or a pattern?

In 2 Corinthians 4:6 Paul tells us about God saying :
“Let brilliant light shine out of darkness,” TPT

Pumpkins can be the perfect example of this, the inside removed and a light added to shine faces or patterns and brighten a dark night.

Pumpkins are actually a fruit

I wonder how many seeds are inside a pumpkin?
A pumpkin grows from just one seed but contains many, many more. I wonder if there are things in your life that can multiply like that? I wonder if this is anything like the Kingdom Jesus often talked about?

pumpkin S'mores Recipe

Get help when using sharp items or hot things!

Chop the pumpkin in half and put it seed side up in the microwave

Cook for 20 minutes until it feels soft

Scoop out the seeds (you can dry these for the birds) and take out the flesh

Mash this up to make puree.

Then place 8 ginger biscuits on a baking tray

Put a marshmallow on each one

Grill these until they are soft or cook it over a campfire

Add some puree on top and then make into a sandwich by putting another biscuit on top!

SHARE AND ENJOY!
